

INVESTMENT STRATEGY

The aim is to deliver attractive returns and diversification to traditional portfolios consisting of bonds and equities.

The investment universe consists of small- and medium-sized publicly traded companies primarily within the Nordics. The investments are often tailor-made financing solutions consisting of multi-year convertible loans supplemented with a directed issue of shares and/or warrants. The investment company is illiquid, and the investments may therefore be of a less liquid nature.

The risk of the fund will vary, as the sensitivities of the portfolio will change with time, but a risk of the fund, which is similar or higher than that of the global equity market, is targeted. Investors may lose their entire investment. Investors do not take on additional financial commitments in addition to subscribed amounts.
